

RETRACTION: Open reduction and internal fixation of displaced clavicle fractures in adolescents

Harish S. Hosalkar,¹ Gaurav Parikh,²
James D. Bomar,¹ Bernd Bittersohl^{1,3}

¹Department of Orthopedic Surgery,
²International Hip and Trauma Fellow,
Rady Children's Hospital, San Diego,
USA; ³Department of Orthopedics,
Heinrich Heine University Hospital,
Dusseldorf, Germany

The authors have retracted their paper *Open
reduction and internal fixation of displaced*

clavicle fractures in adolescents.¹

Specifically, upon further review, the authors
have noted some errata in the data collection.

The authors' clinical experience does not
lead them to change the main conclusions of
the paper, but due to the observed mistakes,
they decided to retract the previously publis-
hed article.
